Ph.D. Candidate | [albertal@kth.se](mailto:albertal@kth.se) | [albertal](#)

Division of Robotics, Perception, and Learning (RPL)

KTH Royal Institute of Technology, Stockholm, Sweden

---

## RESEARCH STATEMENT

I envision a future where robots, as assistive agents, seamlessly operate in dynamic, unstructured environments, equipped with the ability to perform complex reasoning and manipulation tasks. My research, at the intersection of robotics and machine learning, focuses on the adaptive manipulation of deformable objects, an area that requires novel approaches for characterization, perception, modeling, and control. I explore object-centric world models to enable inference, planning, and reasoning, alongside developing methods for object characterization, physics-informed representations, and interactive perception. Recently, I have been investigating how to enhance the physical and semantic reasoning of foundation models, with the goal of equipping agents to handle diverse and variable tasks in real-world settings.

**Keywords:** Deformable Object Manipulation · Representation Learning · Interactive Perception · Object-centric World Models

## EXPERIENCE

- Ph.D. Candidate 2021–(expected 01/25)  
*KTH Royal Institute of Technology* Sweden
- Teaching Assistant 2021–now  
*KTH Royal Institute of Technology* Sweden
- Visiting Researcher 2023  
*Carnegie Mellon University* USA

---

## EDUCATION

- Ph.D. Computer Science 2021–now  
*Division of Robotic Perception and Learning (RPL), KTH Royal Institute of Technology, Sweden*
  - Supervisors: Prof. Danica Kragic, Michael C. Welle, Jens Lundell
- Degree Project Abroad fall 2020  
*Division of Robotic Perception and Learning (RPL), KTH Royal Institute of Technology, Sweden*
  - Scholarship: Erasmus Mundus.
- M.Sc. Automation Engineering 2018–2021  
*Department of Information Engineering (DEI), University of Padua, Italy*
  - Thesis Title: Fabric Material Classification by Combining Force Sensing and Vision.
  - Supervisors: Prof. Alessandro Chiuso, Prof. Danica Kragic.

- International Studies fall 2017  
*Facultat Informatica de Barcelona (FIB), Universitat Politecnica de Catalunya (UPC), Spain*
  - *Scholarship: Erasmus Mundus.*
- B.Sc. Information Engineering 2015–2018  
*Department of Information Engineering (DEI), University of Padua, Italy*
  - *Thesis Title: Experimental and computational applications of semantic networks.*
  - *Supervisor: Prof. Leonardo Badia.*

## HONORS AND DISTINCTIONS

---

- "Mille e una lode" Award 2017  
*Awarded a selective scholarship by the University of Padova to excellent students in each degree programme.*

## TEACHING AND SUPERVISION

---

### COURSES

- Introduction to Robotics 2022–now  
*School of Electrical Engineering and Computer Science* *KTH Royal Institute of Technology*
- Image Analysis and Computer Vision 2021–2023  
*School of Electrical Engineering and Computer Science* *KTH Royal Institute of Technology*

### M.SC. STUDENTS

- Noel Johansson, "Benchmarking Sentence-Transformers for Duplicate Bug Detection on Novel Dataset" 2024  
M.Sc. Computer Science, *KTH Royal Institute of Technology*
- Mark Bergrahm, "Explanation methods on a partially trained model" 2024  
M.Sc. Computer Science, *KTH Royal Institute of Technology*

## PROGRAMMING LANGUAGES

---

- Python *Proficient*
- ROS *Proficient*
- C++ *Competent*

## LANGUAGES

---

- Italian *Native*
- English *Fluent*
- Spanish *Conversational*

## PROFESSIONAL SERVICE

---

### RESEARCH COMMUNITY SERVICE

- PhD Representative - Member of the EECS PhD school council. 2023-Now

### ORGANIZATIONAL ROLES

- Fourth workshop on Representing and Manipulating Deformable Objects (ICRA) 2024-Now

### REVIEWER

- Conference on Robot Learning (CoRL) 2024-Now
- IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS) 2021-Now
- IEEE International Conference on Robotics and Automation (ICRA) 2022-Now
- IEEE Robotics and Automation Letters (RA-L) 2024-Now
